ENERGYCITY

AN EXPERIMENTAL PROCESS OF NEW ENERGY SCENARIOS
PESCARA - ARCHITECTURE AND PUBLIC SPACE

ALBERTO ULISSE

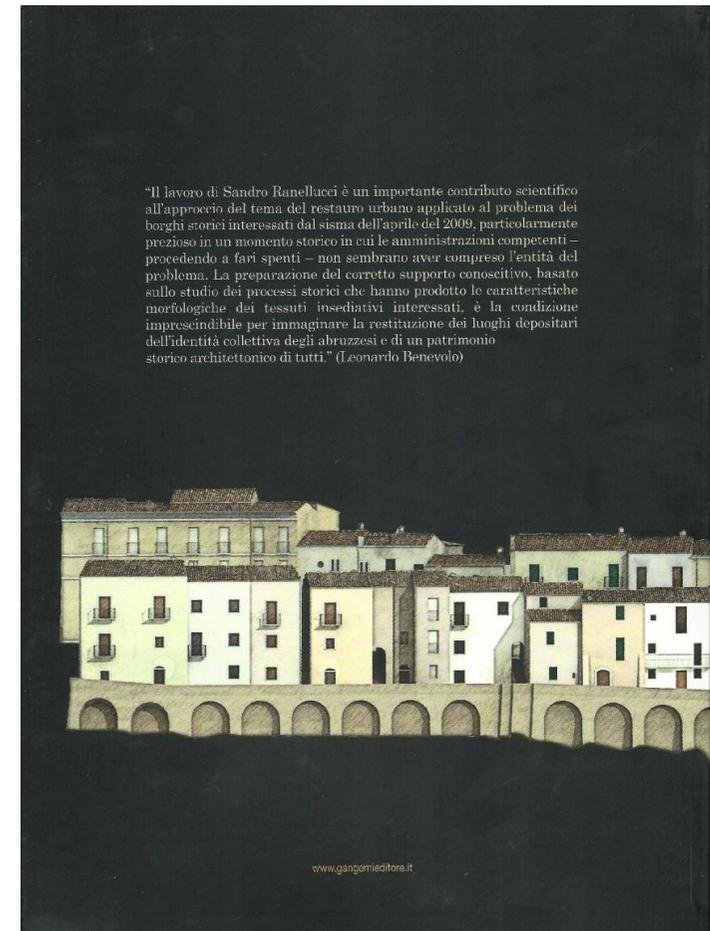

9 788895 623405

BABEL

Energycity is an experimental process of new energy scenarios: Pescara, architecture and public space. A reflection on the development of urban communities and changes of the territories of more energy “consumers”. In a different interpretation of the polycentric urban context, within which one has the greatest concentration of activity and human presence.
